IsSpice Training Class

Interface Technologies develops and delivers training classes that helps design specialists and engineers maximize their use of Intusoft products. Interface Technologies' classes are designed to provide the following benefits :

- Minimize the time to learn the Intusoft products
- Highlight and explain commonly used product features
- Explanation of menus and control options
- Provide a hands-on, interactive training experience
- Suggest a methodology that provides predictable, successful results
- Provide a learning experience that amplifies the benefits of using Intusoft software

S U B J E C T S C O V E R E D D U R I N G T H E 2 D A Y C L A S S

SpiceNet Schematic Entry

- Overview of menus, icons
- Keyboard shortcuts
- Panning and Zooming
- Flat Designs
- Hierarchical Designs
- Wires, Busses and Ports
- Labeling Parts and changing values
- Changing symbol attributes
- Schematic Layers
- Display of Operating Point Voltages
- Symbol Libraries
- Attaching symbols to simulation models

IsSpice

- Overview of IsSpice analysis
- DC operating point
- AC sweep
- Transient Analysis
- Waveform displays
- Automatic measurements
- Parametric Sweeping
- Monte Carlo
- Worst Case Analysis
- Digital Simulation
- Mixed Signal Simulation
- Simulation Libraries
- Understanding Spice Models
- Creating new parameters for existing models
- Creating new models

Classes are held in the Chicago area on a quarterly schedule. Onsite classes can be arranged for groups of 5 or more students. See the back side of this document for the list of currently scheduled classes and prices.

Customized classes, two or three days in length, can stress specific areas of customer interest Call Dan Waterloo at Interface Technologies to discuss your requirements.

intusoft **IsSpice Training Class**

- Why: Compress the learning curve and maximize the benefits of using Intusoft products.
 Who: Any person that needs to use the Intusoft products. Familiarity with Windows and Circuit Design desirable.
 What: Two day class, covering subjects listed on previous page, with hands-on labs.
 When: April 25-26 (SJ); June 23-24 (Chgo); October 7-8 (SJ); December 14-15 (Chgo), 2010
 Where: SJ = San Jose, CA, Chgo = Chicago, IL or onsite class
 How: Fill in the form below, and fax it to Dan Waterloo at Interface Technologies: fax (708) 366 - 4413

F A X B A C K R E G I S T R A T I O N F O R M

Please register me for the class on April 25-26, 2010, in San Jose, CA
 June 23-24, 2010 in Chicago IL area
 October 7-8, 2010, in San Jose, CA
 December 14-15, 2010 in Chicago IL area

I understand that the course costs \$1795/person, and includes the two days of training, evaluation copies of the Intusoft products and a certificate of achievement.

I prefer to pay for the class by Credit Card (Mastercard/VISA/American Express) Check Purchase order.

Please send information on the location and room accommodations. I'll expect to receive confirmation of this registration within the next couple of days.
